

Water Fun: FLOAT or SINK?

If you love playing in water, you'll love this science experiment! Some objects are heavy and others are light. Will that matter when you place them in water? Let's see what happens to each object.

Directions:

1. Fill a glass half full with water.
2. Gather the items listed below.
3. Hold each object in your hand and guess if it will float or sink. Circle your guess.
4. Drop the object into the water and watch what happens!

Object	My Guess	Result
Pinecone	↑ Float or ↓ Sink	↑ Float or ↓ Sink
Plastic Fork or Spoon	↑ Float or ↓ Sink	↑ Float or ↓ Sink
Coin	↑ Float or ↓ Sink	↑ Float or ↓ Sink
Paper clip	↑ Float or ↓ Sink	↑ Float or ↓ Sink
Rock	↑ Float or ↓ Sink	↑ Float or ↓ Sink
Crayon	↑ Float or ↓ Sink	↑ Float or ↓ Sink
Button	↑ Float or ↓ Sink	↑ Float or ↓ Sink
Toy Block	↑ Float or ↓ Sink	↑ Float or ↓ Sink
Sponge	↑ Float or ↓ Sink	↑ Float or ↓ Sink
